

Samsung Galaxy Tab A 9.7 Display Glass Replacement

Use this guide to replace the display glass on the Samsung Galaxy Tab A 9.7.

Written By: Paulina Nguyen

INTRODUCTION

If the glass on the screen of your Samsung Galaxy Tab A 9.7 is cracked or damaged in any way, your device could be nearly unusable. This guide will help you replace the display glass in an easy and safe way.

TOOLS:

- [iOpener](#) (1)
 - [Metal Spudger](#) (1)
-

Step 1 — Display Glass

- Microwave the iOpener for 30 seconds.
- Place the iOpener on each side of the screen for 30 seconds.

Step 2

- Take a metal spudger and wedge it between the screen and the glass.
- Avoiding the screen itself, run the spudger along the perimeter of the device to weaken the glue between the glass and screen, and pry the glass off.

Step 3

- Using a suction cup, gently remove the screen from the device.
- ★ When placing a new screen on the device, remember that you will have to reapply adhesive to the outside of the screen.

To reassemble your device, follow these instructions in reverse order.
